

## MAGNETIC SHIELDING CHAMBERS

### • Shielding Chambers

Magnetic Shielding Chambers are used to shield magnetic sensors from ambient magnetic fields. Main application is zeroing of Hall probes.

The following models are available:

**NK 4065**  
Inside diameter: 19 mm (0.75")  
Inside length: 279 mm (11")  
Weight: approx. 0.8 kg

**NK 4060**  
Inside diameter: 12 mm  
Inside length: 53 mm

**NK 1**  
Inside diameter: 8 mm  
Inside length: 48 mm
